Firebase

WORK EXPERIENCE

Senior Frontend Engineer Whogobuyam Online

An online shopping solution that offer unique products for different collections of online stores

Tasks

- I executed and contributed to full-stack web development projects, with an emphasis on frontend features, browser manipulation, and cross-browser compatibility to build a customer-facing single sign-on application.
- I implemented and analyzed website analytics to highlight user flows that required usability improvements within the newly reskinned customer portal application

Software Developer Hotels.ng

Hotels.ng is a Nigerian online hotels booking agency which was launched in 2013. And it claims to list over 7,138 hotels from 320 cities in Nigeria

Achievements/Tasks

- I collaborated with other interns to develop devalert.me (a job and internship finding platform for African software developers.)
- I ran UX usability tests for both mobile and desktop devices to ensure customer satisfaction on all customer-facing web applications

PERSONAL ACHIEVEMENTS

Google Developer Student Clubs Lead

- I was selected as a lead student developer among sixty students from sub-saharan Africa.
- I was responsible for acquiring and managing more than fifty student developers into the team on my campus while building solutions for local businesses in our community
- I organized and meet-ups to exchange ideas on software development

ANDELA LEARNING COMMUNITY with Microsoft

- The Andela Learning Community is a network of people technologists and tech enthusiasts across Africa dedicated to learning how to use technology to solve humanity's problems.
- I implemented a responsive and mobile friendly website with HTML, CSS, JQuery and Bootstrap and I hosted it on GitHub pages.

Freelance Web Developer (04/2018 – Present)

- I consulted with clients to outline website goals, illustrate wireframes and developing the website based on the client requirement.
- I developed and deployed mobile responsive websites using bootstrap and flexbox to produce user friendly and efficient interface

ORGANIZATIONS

Google Developer Student Clubs (07/2019 – 09/2019)

I managed a community of student developers on my campus to build solutions for local problems in a peer-to-peer learning environment.

Africa Code Week

I coordinated a training workshop that digital literacy and coding skills in the young generation by introducing kids to scratch and html5.
