EDUCATION

Study Program
Udacity Deep Learning Nano Degree Program ⬀

09/2019 – Present

Courses

- Recurrent Neural Networks
- Convolutional Neural Networks
- Generative Adversarial Networks

WORK EXPERIENCE

Senior Frontend Engineer
Whogobuyam Online ⬀

An online shopping solution that offer unique products for different collections of online stores.

Tasks

- I executed and contributed to full-stack web development projects, with an emphasis on front-end features, browser manipulation, and cross-browser compatibility to build a customer-facing single sign-on application.
- I implemented and analyzed website analytics to highlight user flows that required usability improvements within the newly reskinned customer portal application.

Software Developer Intern
Hotels.ng

Hotels.ng is a Nigerian online hotels booking agency which was launched in 2013. And it claims to list over 7,138 hotels from 320 cities in Nigeria

Achievements/Tasks

- I collaborated with other interns to develop devalert.me(a job and internship finding platform for African software developers.)
- I ran UX usability tests for both mobile and desktop devices to ensure customer satisfaction on all customer-facing web applications.

ORGANIZATIONS

Google Developer Student Clubs (07/2018 – 09/2019) ⬀
I managed a community of student developers on my campus to build solutions for local problems in a peer-to-peer learning environment.

Africa Code Week
I coordinated training workshops that instill digital literacy and coding skills in the young generation by introducing kids to scratch and html5.

SKILLS

Python   Javascript   Nodejs   Vue

Jquery   HTML5   Bootstrap4   Postgres

MongoDB   Mocha   Flutter   Firebase

Git

PERSONAL ACHIEVEMENTS

Google Developer Student Clubs Lead

- I was among sixty students selected from sub-Saharan Africa as a lead student developer.
- I was responsible for acquiring and managing more than fifty student developers into the team on my campus while building solutions for local businesses in our community.
- I organized meet-ups to exchange ideas on software development.

ANDELA LEARNING COMMUNITY with Microsoft

- The Andela Learning Community is a network of people technologists and tech enthusiasts across Africa dedicated to learning how to use technology to solve humanity's problems.
- I implemented a responsive and mobile friendly website with HTML, CSS, JQuery and Bootstrap and I hosted it on GitHub pages.

Freelance Web Developer (04/2018 – Present)

- I consulted with clients to outline website goals, illustrate wireframes and developed the website based on the client's requirement.
- I developed and deployed mobile responsive websites using bootstrap and flexbox to produce user-friendly and efficient interface.

Apex Tracker Project ⬀

- I built a full-stack application using the Tracker Network API to track player stats with Vue.js and Express then I deployed the app to Heroku.
